EQUIPMENT FOR SALE All Inquiries Call 518-857-0761

(We can email you high-res versions of photos if you wish, request from racing@cvra.com)

1971 Mack – DM Model Cab Engine is 237 HP 6-cyl. This engine was a Mack Remanufactured engine that was installed in 1993. Truck has a 5,000 gallon Curry Supply water tank. Tank was installed NEW by Curry Supply March 1995. The Mack chassis was a total cab off of frame restoration by Curry Supply in 1995. Truck features 6 air controlled valves front, middle, rear of both sides of truck. Water pump is hydro-driven off front of truck engine. Truck and tank finished in bright red (totally repainted in 2007). All rubber is good and the motor runs like a watch. Truck is ready to go to work today**Asking \$17,500 OBO**

1984 Ford 8210 Tractor 95 HP. Runs good, has a fresh clutch package. **Asking \$6,500 OBO**

1979 John Deere Motor Grader 12' cutting edge. Engine was rebuilt from bottom-up, with low hours on rebuild. Transmission was rebuilt just prior to our purchase. Both engine and transmission are very sound.**Asking \$12,500 OBO**
